

ACKNOWLEDGEMENT

Over the years I have gathered and borrowed information regarding athletic administration for students, parents, and coaches . This past summer (2001),lp, I finally organized the material into a student-parent handbook that I feel will be useful to students, parents, and coaches. I was assisted greatly with a template of information from Brian Wilbur and Gordon Thompson of Granite Hills High and Bill Bree from Golden West High School.

I would like to thank these gentlemen and also thank the National Federation for their continual help in coaching education.
